Advisory Committee Meeting June 21, 2017

South Central Regional Multi-Jurisdiction Hazard Mitigation Plan Update

BENEFITS OF MITIGATION PLANNING

- Identify hazards and prioritize risk reduction efforts
- Increase public awareness of hazards
- Build partnerships between jurisdictions
- Align risk reduction with other community objectives
- Become eligible for State and Federal funding
- Speed recovery following disaster events
- Maximize credit points under the National Flood Insurance Program's Community Rating System (CRS)

JAMIE CAPLAN CONSULTING LLC

BENEFITS AND CHALLENGES OF PLAN UPDATE

- Regional plan achieves economies of scale.
- Including 14 municipality specifics is a challenge.
- Our solution
 - Confer with FEMA and CT Dept. of Emergency Services & Public Protection for their expectations.
 - Work with individual municipalities to gather data.
- Your thoughts...

PLANNING PROCESS IN DETAIL

Key Project Tasks:

- Planning Process
- 2. Risk Assessment
- 3. Capability Assessment
- 4. Hazard Mitigation Strategy
- 5. Plan Maintenance Process
- 6. Adoption and Approval

JAMIE CAPLAN CONSULTING LLC

ROLE OF THE ADVISORY COMMITTEE

- · Help guide and inform plan development
- Attend 4 committee meetings
- Provide supporting data/information upon request
- Assist in the evaluation and prioritization of mitigation actions
- Review and comment on draft plan deliverables
- Approve final draft plan prior to submission to CT Dept. of Emergency Services & Public Protection and FFMA
- Public outreach and engagement help spread the word!

JAMIE CAPLAN CONSULTING LLC

PUBLIC OUTREACH AND STAKEHOLDER ENGAGEMENT

• Public outreach and

essential to project

stakeholder

success!

engagement is

- To generate public interest, solicit citizen input, and engage additional partners in the plan development process
 - Advisory Committee
 - Municipality MeetingsPublic Outreach
 - Public Outreach
 - Project Fact Sheet
 - Public MeetingsPublic Opinion Survey
 - Media Releases

South Central Regional Multi-Jurisdiction Hazard Mitigation Plan Update

RISK ASSESSMENT - ADDITIONAL ANALYSIS

- Approach for Additional Analysis in Updated Plan
- The list of hazards will be the same
- Hazard profiles will be similar but updated for new information
- . This SCRCOG plan update will allow for the first time consideration of risk profiles and loss estimates in the Connecticut Hazard Mitigation Plan Update (2014), which was a significant update relative to the 2010 edition of the Connecticut Hazard Mitigation the Connecticut Hazard Mitigation

JAMIE CAPLAN CONSULTING LLC

RISK ASSESSMENT – ADDITIONAL ANALYSIS Approach for Additional Analysis in **Updated Plan** · Consideration of changes associated with the new Flood Insurance Study (FIS) and FIRM for Quinnipiac River and south-central Connecticut Wallingford JAMIE CAPLAN CONSULTING LLC

· Approach for Additional Analysis in **Updated Plan** -National Climate Data Center (NCDC) updated database of events -Updated lists of Repetitive Loss (RL) and Severe Repetitive Loss (SRL) properties -Consideration of the two disasters declared since

the initial plan (2013 and 2015)

-HAZUS Version 4.0 with 2010 Census Data

Purpose: To assess each municipality's existing authorities, policies, programs, and resources available to support hazard mitigation efforts. Two primary components: An inventory of municipality plans, regulations, programs, and activities already in place. An analysis of each municipality's capacity and resources to carry them out, and it's ability to expand or enhance them for hazard mitigation purposes. Types of capabilities: Planning and Regulatory Administrative and Technical Financial Education and Outreach National Flood Insurance Program and Community Rating System

MITIGATION STRATEGY

- Long-term blueprint for reducing the potential losses identified in the risk assessment.
- The strategy describes how the municipalities will accomplish the overall mission of the mitigation plan.
- Mission Statement
 - Reduce or eliminate risk to people and property from natural hazards.

JAMIE CAPLAN CONSULTING LLC

Goal Categories	Mitigation Plan Goals
Community Planning	 Reduce the impact of natural hazards by integrating natural hazard mitigation policies and practices into local community planning.
Flood Hazards	 Minimize flood hazards in the region by maintaining continued compliance with the National Flood Insurance Program, adopting higher regulatory standards for new floodplain development, and implementing flood mitigation projects for existing flood prone structures.
Trees	 Limit the impact of fallen trees due to natural hazards by collaborating with electric utility companies and property owners (private and public) to cut limbs and remove hazardous trees that pose threats to buildings, infrastructure and utility lifelines.
Regional Collaboration	 Build capacity for natural hazard mitigation and climate adaptation at the local level through regional collaboration.
Public Awareness and Preparedness	Increase public awareness and preparedness for natural hazards by implementing community-based public education programs across the region.

MITIGATION ACTIONS

- 1. Local Planning and Regulations
- 2. Structure and Infrastructure Projects
- 3. Natural Systems Protection
- 4. Education and Awareness Programs
